**Propeller Type:** 2-Blade Fixed 3-Blade Fixed Feathering Folding **Keel:** Fin Full Wing Centerboard

**Rudder:** Spade Skeg Elliptical **Rig:** Mast Head Fractional Other

**Largest Headsail** ( if greater than 183% of J):\_\_\_\_\_ % of J

**Largest Spinnaker Girth** Expressed as % of J ( if greater than 183%):\_\_\_\_\_

% of J **Spinnaker Pole Length**\_\_\_\_\_Ft. \_\_\_\_\_ % of J **Roller Furling** (Y/N)\_\_\_\_\_

Explain any modifications made to the rigging or below the waterline:\_\_\_\_\_

\_\_\_\_\_

The above information format was borrowed with permission from the Mayor's Cup organization in 1999. In 2008, most sailboat manufacturers have a web page(s) devoted to the analysis of the various sailboat models and their PHRF ratings. Ratings are listed by manufacturer, model, and geographic location (body of water). Choose a body of water that is similar in latitude to Lake Champlain to determine the PHRF for your boat.

If you can't find your PHRF, please email the above information about your boat to Dee Carroll, [dee@shipstore.com](mailto:dee@shipstore.com), or mail to PO Box 410, Westport, NY 12993. Please do so by the Friday of the week prior to the race day. (July 25, 2008)

Thank you, Dee
